Is it EPA's audit report? If so, then yes, post it on our webpage.

If not, then I can let them know to fix their broken link.

Also looks like the DOGGR web link that is on our CA UIC page

to the June 2011 audit report is not working. Can someone notify them?

We may want to put PDF on our site so there will be no access issues. If that is ok I will work with Bonnie on this.

We (me or Nahal) can reach out again to both Theresa Schilling and Debbie Maldonado by phone. Their public affairs office ought to be communicating primarily with our public affairs office. Hopefully soon (as Mike mentioned to me in passing earlier this week) our respective OPA staff can call/meet to discuss improving overall communications moving forward.

Great. Thanks for organizing a conference call. Just let us know how we can help once you hear back from DOC. Thanks.

Hi Debbie –

I am out of the office but I think one of the folks I have copied here can help. Thanks

Mike

Subject: Seeking graphics to illustrate underground injection wells

Hello Mr. Montgomery,

My name is Debbie Maldonado and left you a message on your phone today.

I was referred to you by Marilla Habel, from DOC via my supervisor Teresa Schilling PAO officer at DOC to contact you in regards to well injection information.

We're looking for graphics to illustrate underground injection wells.

Our understanding is the US EPA has put together related training information on injection wells that you may have and hopefully we can use.

You can contact my Supervisor with the information or questions you may have. Her name and email below

Any help would be greatly appreciated.

Thank You... Debbie

Teresa Schilling DOC/ PAO officer
